History of the American Legion Boys State Program

The Boys State program was created in 1935 by Professor Hayes Kennedy. Professor Kennedy taught at the Loyola University School of Law in Chicago and was Americanism Chairman of the Illinois Department of the American Legion.

Professor Kennedy was concerned about a Communist Party project called "Young Pioneer Camps", which tried to show the uselessness of democracy and advocated the virtues of the communist system. Professor Kennedy felt that a counter movement should be started among the ranks of the nation's youth to stress the importance and value of our democratic form of government.

The Illinois Department of the American Legion approved Professor Kennedy's project and in June 1935, the very first "Boys State" in the nation was held on the Illinois State Fairgrounds.

From that beginning, the program swiftly spread among other American Legion Departments. By 1941, 34 states were conducting a Boys State program. Today, The American Legion conducts a Boys State program in 49 states and the District of Columbia. Hawaii is the only state that does not have a Boys State program.

Boys State came to New Jersey in 1946 thanks to Harry Groome who heard about the program at a national convention in 1945. The first ALJBS session was held at Douglas College in New Brunswick with only 250 delegates. The program quickly expanded and moved to Rutgers University. Rider University became our home in 1969. From the start, Harold "Chief" Eaton was the Director until his death in 1984. Under Chief Eaton's direction, Jersey Boys State developed into one of the preeminent Boys State programs in the country. Our format has been copied by many other states.

Stanley McGraw followed Chief Eaton as Director of Jersey Boys State and served for the 1985 and 1986 sessions. Harry Groome's grandson, Ken Groome was Director during 1987 and 1988. Former Department of New Jersey Commander Bob Bohn was Jersey Boys State Director during 1989 and 1990. In 1991, Former Boys State Governor, William T. Wilkins became Jersey Boys State's 5th Director in its illustrious history. William "Bill" Wilkins was director for 15 years until his death in 2005.

In 2005, David Bagatelle was appointed the 6th and current Director. He is serving his 12th term and continues to shape the program into a college-level seminar. We currently have over 950 delegates attending every year. More than 65,000 delegates have participated in ALJBS since its inception. The ALJBS program is among the best Boys State programs in the country.

American Legion Jersey Boys State Laws

Summary of Political Schedule

Welcome to the annual session of ALJBS. Throughout our history, ALJBS has been providing the youth of our state with one of the most meaningful experiences of their high school career. Your selection to this elite and prestigious program by the American Legion, your teachers, and sponsors means that you are among the top students in all of New Jersey. For this, you are to be commended. However, to be successful at Boys State you cannot rely upon your past accomplishments. All of the other 950+ delegates here are much like you: student council presidents, honor society members, and sports team captains. Although there is no formula on how to be successful here, one thing is certain: **you must get involved**. Things happen rapidly at ALJBS. By Tuesday night, after less than 60 hours, almost all city, county, and state elected offices will have been filled. County Government

Each county will be assigned a county description, which will help determine the type of county government you select.

The county governments will have to approve the city plans to ensure that they fit together in the county plan, which is developed after seeing preliminary proposals of the two city plans. The county government will be lobbied by the two mayors and city councils—and possibly by other cities as well. The county may reassess the entire county if the state requires or decides that it needs additional funding.

The Best County Award, which places an emphasis on county government, is largely determined by the County Manual that each county must prepare. The County Manual is very similar to the City Manual, which you are very familiar with by now, and forces you to work together with your fellow county members on larger issues.

City and County Manuals

The City and County Manuals are due Thursday night at 7:25 pm.

INTRO Each ALJBS city and county must create a manual detailing its activities throughout the week, which serves three purposes. First, it helps us evaluate the effort of cities and counties. Second, it helps us evaluate the effectiveness of the staff's effort. Third, it serves as the capstone project for each city and county, drawing together all the lessons learned during the session. These manuals are extremely important, which is why they count for nearly one-half of a city or county's grade toward the Best City and County awards.

DETAILS As previously mentioned, the City and County manuals serve as the capstone project for each city and county. A capstone project can be defined as "a multifaceted assignment that serves as a culminating academic and intellectual experience for students." (www.edglossary.org)

The City and County Manuals are essentially a series of reports, written by elected and appointed officials, and submitted to their City/County Clerk for collation.

Each official should include a report. The Mayor or County Leader may choose to include some of his own feelings about the workings of his city or county, but should ensure that the Manual reflects what was accomplished during the week. Additional information could include maps (hand-drawn maps can be included in the document using the City camera), budgetary outlines, zoning requirements, population information, etc. Each manual's content will be dictated by the dedication and creativity of the leadership of each city/county. If the Mayor or County Leader carefully chooses his staff, sets high standards, and stimulates his citizens, he can make his ALJBS city or county into something of tremendous practical worth.

While not every elected or appointed position at ALJBS will have a clear-cut job description, each statesman should use his imagination to some extent for both day-to-day operations (Board of Health Commissioner checks for health violations in fellow statesmen's dorm rooms) as well as endeavors based on the city description (same Commissioner writes a proposal to the next city on how to properly vaccinate the youth of the county's population). The detail and depth of these reports will vary by position, but all will document the activities of the statesman in addressing the problems outlined in the city/county descriptions and/or what he did in 'real life.' In addition to these reports, all City and County Manuals must contain a budget.

CREATION AND SUBMISSION City and County Manuals will be generated on the computers provided by the ALJBS Technology Committee using the included spreadsheet and word processing software. All content will be compiled and submitted as **a single PDF document**.

SCORING The manual will be scored based on three primary categories: 1) how thoroughly and creatively the City/County addressed the problems that were outlined in its City/County descriptions, 2) its budget submission, and 3) the quality of the presentation, participation, flow, and style. More detailed information will be presented to City/County leaders during the week.

After the manuals are validated and graded, they will be available on the ALJBS.org public website for your parents, families, friends, and sponsors to view.

Again, the Manuals are due at 7:25pm on Thursday evening. Prepare accordingly and don't wait until the last minute. Late submissions will not be accepted.
